Plant and Soil **152**: 309–312, 1993.

Contents Volume 152 (1993)

Special Issue: **ENHANCEMENT OF BIOLOGICAL NITROGEN FIXATION OF COMMON BEAN IN LATIN AMERICA**

Methods for enhancing symbiotic nitrogen fixation 1
G. Hardarson

Methods for measuring biological nitrogen fixation in grain legumes 19
G. Hardarson, S.K.A. Danso

Misconceptions and practical problems in the use of ^{15}N soil enrichment techniques for estimating N_2 fixation 25
S.K.A. Danso, G. Hardarson, F. Zapata

Measurements of N_2 fixation by common bean in Central Brazil as affected by different reference crops 53
R.A. Henson

Genotypic variation in biological nitrogen fixation by common bean 59
G. Hardarson, F.A. Bliss, M.R. Cigales-Rivero, R.A. Henson, J.A. Kipe-Nolt, L. Longeri, A. Manrique, J.J. Peña-Cabriales, P.A.A. Pereira, C.A. Sanabria, S.M. Tsai

Breeding common bean for improved biological nitrogen fixation 71
F.A. Bliss

Mutation breeding of grain legumes 81
A. Micke

Yield and biological nitrogen fixation of common bean (*Phaseolus vulgaris* L.) in Peru 87
A. Manrique, K. Manrique, J. Nakahodo

Variability in nitrogen fixation of common bean (*Phaseolus vulgaris* L.) intercropped with maize 93
S.M. Tsai, P.M. Da Silva, W.L. Cabezas, R. Bonetti

Nitrogen fixation in breeding lines of *Phaseolus vulgaris* L. 103
J.A. Kipe-Nolt, H. Vargas, K.E. Giller

A field evaluation using the ^{15}N isotope dilution method of lines of *Phaseolus vulgaris* L. bred for increased nitrogen fixation 107
J.A. Kipe-Nolt, K.E. Giller

Time course of N_2 fixation in common bean (*Phaseolus vulgaris* L.) 115
J.J. Peña-Cabriales, O.A. Grageda-Cabrera, V. Kola, G. Hardarson

Response to inoculation and N fertilization for increased yield and biological nitrogen fixation of common bean (*Phaseolus vulgaris* L.) 123
P.M. Da Silva, S.M. Tsai, R. Bonetti

Minimizing the effect of mineral nitrogen on biological nitrogen fixation in common bean by increasing nutrient levels 131
S.M. Tsai, R. Bonetti, S.M. Agbala, R. Rossetto

Effect of different levels of mineral nitrogen on nodulation and N_2 fixation of two cultivars of common bean (*Phaseolus vulgaris* L.) 139
S. Müller, P.A.A. Pereira, P. Martin

Effect of fungicides on survival of *Rhizobium* on seeds and the nodulation of bean (*Phaseolus vulgaris* L.) 145
M.L.G. Ramos, W.Q. Ribeiro Jr.

Effects of water stress on N_2 fixation and grain yield of *Phaseolus vulgaris* L. 151
J.J. Peña-Cabriales, J.Z. Castellanos

Utilizing the potential for increased nitrogen fixation in common bean 157
F.A. Bliss

Research articles

Mechanistic simulation models of nutrient uptake: A review 161
Z. Rengel

Tolerance to acid soil conditions of the velvet beans *Mucuna pruriens* var. *utilis* and *M. deeringiana*, II: Above-ground growth and control of *Imperata cylindrica* 175
K. Hairiah, M. van Noordwijk, S. Setijono

Gas-filled root porosity in response to temporary low oxygen supply in different growth stages 187
M. van Noordwijk, G. Brouwer

Boundaries between soil compartments formed by microporous hydrophobic membranes (GORE-TEX$_R$) can be crossed by vesicular-arbuscular mycorrhizal fungi but not by ions in the soil solution 201
P. Mäder, H. Vierheilig, M. Alt, A. Wiemken

Studies of ^{13}C in the foliage reveal interactions between nutrients and water in forest fertilization experiments 207
P. Högberg, C. Johannisson, J.-E. Hällgren

Water-soluble organic matter in forest soils, I: Complexing properties and implications for soil equilibria 215
A.T. Kuiters, W. Mulder

Water-soluble organic matter in forest soils, II: Interference with plant cation uptake 225
A.T. Kuiters, W. Mulder

Evaluation of toxic conditions associated with oranging symptoms of rice in a flooded Oxisol in Sumatra, Indonesia 237
A. Jugsujinda, W.H. Patrick, Jr.

Soil redox-pH stability of arsenic species and its influence on arsenic uptake by rice 245
A.R. Marin, P.H. Masscheleyn, W.H. Patrick, Jr.

Variation in ^{15}N enrichment of crimson clover labeled under field conditions **255**
C.R. Crozier, L.D. King, R.J. Volk

Effect of soil water content on the gravitropic behavior of nodal roots in maize **261**
T. Nakamoto

pH above 6.0 reduces nodulation in *Lupinus* species **269**
C. Tang, A.D. Robson

Element turnover in a heavily damaged Norway spruce ecosystem influenced by N deposition **277**
W. Schaaf, W. Zech

Factors affecting formation of cluster roots in *Myrica gale* seedlings in water culture **287**
L.J. Crocker, C.R. Schwintzer

Short communication

Potassium nutrition of rice (*Oryza sativa* L.) varieties under NaCl salinity **299**
J.S. Bohra, K. Doerfling
